

## Sasha's story

Hi I'm Sasha a 3 year old German shepherd and behave like an angel – now. It wasn't always the way. When I was a puppy I was extremely bad. I would not listen at all, never came when called and pulled my mum over a few times. I was always getting into mischief. I was bound for the RSPCA or extensive schooling. Lucky for me mum chose the latter.

At 5 months of age I chomped my way through the house, the shirting boards, carpet, a bed, heater cord (thank god it was off), an expensive leather lounge, 6 pairs of slippers, numerous boxes of tissues and paper towels.

Outside I excelled also, the entire sprinkler system, a cane patio suite (hey even the salvos refused to take away) and Telstra cables.

Landscaping was another speciality. I redesigned the yard, ate my way through \$1000 worth of pots and plants, and dug several craters in the turf, crating a mine field. Overall the damages bill came to \$7000 plus!

Thanks to Dee's Immense knowledge of Training and Behaviour, my wild ways are no longer. I spent much time in the "sin bin", was put on a huge environmental plan, and had so much to do I was too tired to misbehave and constant training won. Dee even taught me how to paint and my canvas hangs proudly in the patio.

We have a great life now, daily park exercises, playing with friends, visiting the beach, drinking puppachinos with my friends.

None of this would have been possible without Dee's help and expertise.  
Thanks Dee  
Pam Martin and Sasha
